

TODO-barret make reusable workflow
example!!

Demo:  [nathan-ohara/ShinySSI](https://github.com/nathan-ohara/ShinySSI)

TODO-barret Make repo on GitHub

Future

- Minimize direct usage of {webr}
- Minimize start time
 - Retrieve Wasm-friendly package from GitHub release
 - Utilize Wasm-friendly meta-CRAN repositories (library of many Wasm packages)
 - Create custom package bundle on demand via GitHub Actions
