Future

- Minimize direct usage of {webr}

- Minimize start time
  - Retrieve Wasm-friendly package from GitHub release
  - Utilize Wasm-friendly meta-CRAN repositories (library of many Wasm packages)
  - Create custom package bundle on demand via GitHub Actions

{shinylive}: Serverless Shiny apps

- ⬛ posit-dev/r-shinylive

- shinylive::export(from_here, to_there)

- Use GitHub Actions to deploy your app

- ⚠️ No secrets!
